Aufbau der Versionshistorie:

<Datum> Version <Versionsnummer>

| Bug / Feature / Performance (eventl. interne ID) | Beschreibung der Änderung. | Name des Objekts | Die durchgeführte Quellcode-Änderung. Der Quellcode wird aus Platz- und Übersichtlichkeitsgründen nicht immer komplett – insbesondere bei neuen Objekten, wie VBA-Modulen und -Prozeduren – wiedergegeben. |
|--|----------------------------|------------------|---|
| | | | |

2021-05-06 Version 2.0.00

| | | | |
|--------|--|--|---|
| Intern | Unterstützung für andere E-Mail-Clients erweitert Das D&D wurde dahingehend erweitert, dass EML-Dateien von anderen E-Mail-Clients ausgewertet und verarbeitet werden. Somit können auch von anderen E-Mail-Clients E-Mails mit D&D nach orgAnice importiert werden. | | Getestet mit folgenden E-Mail-Clients: <ul style="list-style-type: none">- Thunderbird 78.10.0: Vollständige Integration; es können E-Mails und Anhänge abgelegt werden- eMClient: 8.2.1237.0: Vollständige Integration; es können E-Mails und Anhänge abgelegt werden- The Bat! v9.3.4, teilweise Integration: Es können nur E-Mails ohne Anhang abgelegt werden (E-Mails mit Anhang konnten bei uns nicht von TheBat! per D&D aus dem Client exportiert werden) |
|--------|--|--|---|

2017-08-22 Version 1.0.55

| | | | |
|--------|-------------------------------------|--|--|
| Intern | Lizenzverhalten und Info korrigiert | | |
|--------|-------------------------------------|--|--|

2017-08-22 Version 1.0.54

| | | | |
|-------------------------------------|--|--|--|
| Bug (9286) | OSDD_Datum table property check failed | | |
| Feature (9284) | Lizenzprüfung nur noch auf FeatureCode | | |

2015-05-07 Version 1.0.53

| | | | |
